PLAINSOUND MUSIC EDITION

for Andrew Tholl

duration circa 5 minutes

performance notes:

The dynamics, tempo, and bow placement should all take same general shape throughout the piece, as follows:

On a smaller level, dynamics and tone color should fluctuate and swell, creating little phrases.

When you reach the end for the first time go back to measure 2 and play to the end. Then go to measure 3 and do the same. Continue this process until you play the last measure twice and the piece is finished.
